KILL THE KING

After so many years Kraken come again for all their fans with a rare release! Arkeyn Steel Records found them and made them a really interesting proposal. They thrilled with the idea, so now you can meet them again inside two different CDs in the limited edition of 1000 copies. The first one contains the 1981's recording, five live songs of 1981-83 and for bonus the 1980's demo! In the second one all their metalheads can listen to the record that Kraken did with Lips in 1983. Both of the CDs are digital re-master, with lyrics, bio and many unreleased pics all in 12-pages full color booklets!

In 1975 five years prior to Kraken, the spark began when Karm was inspired after seeing Michael Schenker with UFO. Karm & Rome were neighborhood friends who had a common inspiration & goal to play and write heavy rock music.

Once upon a long time ago as one morning Karm was walking to school discovered an electric guitar (Harmony Stratotone) tossed in the trash in front of a house ready for the disposal truck pickup. Karm excited as seeing it, grabbed it and went straight to Rome's house. Karm figured out how to wire it into the family record player and used that as an amplifier.....
