After a long period filled with patience and endless effort, Tex, managed to complete the recordings of the first demo called "Labyrinth", which consists of six heavy-power metal songs that shook the ears of the bangers. This year, 2012, Tex took a step forward as he created new songs for his latest release and became "SCORCHER". "Armageddon from the Sky" became reality as a result of hard work, inspiration and creativity supported by the right people to reach it's perfection.
